On page 73 of book C of "Records of land commissioners appears an innocent looking entry: "December 7 1909. Note of Joseph and Mary E. Howell of Logan, Cache county, secured by first mortgage on 480 acres in Cache county \$2470. "

Interest Is Overdue.

This money was invested in the in-terest of the state normal school. That an officer of the state who bears the indorsement of his church and his party for the congressional nomination, who in the past has had much to do in his official character as Utah's representative in the lower house of congress, should dip his hand into the public treasury to borrow trust funds is little short of scandalous, but with the board composed as it is at present, some of whose members borrow its funds for their own benefit at will and pay by continued renewals, it is little wonder that a loan to Joseph and Mary E. Howell of Legan was approved by the board.

Not Prompt to Pay.

Brother Howell is not quite as prompt as he should be in the payment of his interest, and to that end has contributed \$2.88 to the normal school fund as interest upon overdue interest.
Elder Howell is a resident of the
same county as Elder Thain of the
state land board, who has a note overdue and underpaid at this time.

### COLLEGIATE INSTITUTE TEAM TO PLAY BINGHAM

The football team of the Collegiate institute will meet the Bingham high school team in the first game of the season at 2 o'clock Friday afternoon. The team puts up a good appearance in its dally work, and with such men as Victor Wood. Ed. Davis, Jack Allen, Lesie Johnson and Bob Hutchens in its lineup, should make a creditable showing.

All members of the Collegiate student association receive the 25-cent round-trip rate, and most of them are expected to attend the game. The arrangements for this game were completed Monday evening by Managers C. H. Masters and James Martin. The Collegiates announce that they are ready to play with any of the high school teams.

Dininny's Application.

The application sets forth that Judge Whitaker holding that the city actorney's office had refused to prosecute the vagrancy case against Virgil McMahon, appointed E. A. Walton and E. A. Rogers to prosecute eases in the police court, cited the city attorney in for alleged contempt, and in the meantime has refused to allow the city attorney's office to appear and prosecute cases in the police court, excluding the city attorney's office to appear and prosecute cases in the police from the city criminal court and in effect deposing the city attorney so far as that tribunal is concerned. The city attorney is without authority thus to exclude his office from the police court, and he wants the district court to review the steps in the proceedings to determine Judge Whitaker's jurisdiction.

The city attorney, in making the application for the certiorarl writ, also was actuated by the desire to clear up the muddle existing in the police court through the exclusion of his office from that tribunal.

to the tuberculin test.

In accordance with this law the work was inaugurated by the state board of health with the co-operation of the United States bureau of animal industry. At this date more than seventy-five hundred (7500) cattle have been tested, of which four and one-half (45) per cent reacted; or, in other words, were found to be infected, and were slaughtered.

City Attorney II. J. Dininny on Monday filed notice in the district court of appeal to the supreme court of the city's case against the East Jordan Irrigation company. In the district court the city sought to condemn a part of the irrigation company's ground to enlarge the municipality's water supply from Utah lake, and the jury assessed the Irrigation company's damages at \$75,000.

The city believes that the damages are excessive and unreasonable, hence its appeal. The Utah lake water is wanted to exchange for an equal amount of water from Big Coltonwood canyon.
